

# MICROPOROUS COVERALL

Part Number: VTMCVRL / VTMCVRLHB

Part of the  
  
 NanoTek,  
 product family

**DESCRIPTION:** This cleanroom contamination control disposable coverall has been designed for extra roominess and comfort. It is lightweight and provides excellent breathability while maintaining full coverage.

The microporous material is a non-linting film with a bonded nonwoven fabric, which offers an ultra-cool and comfortable alternative to TYVEK or other similar materials. It also provides superior barrier protection against non-toxic particulates, liquids, spray and dust.

**COVERALL DESIGN:** Option: With or without the hood and boots  
 Bound seams sewing and tunnelized elastic at the cuff/ankles  
 Flap over zipper closure  
 Sizes according to the ANSI/SEA 101-1996 (R2002)  
 SM, MD, LG, XL, XXL, 3XL & 4XL  
 Color: White

**MATERIAL PHYSICAL PROPERTY:**

Parameter	Spec	Test Method
Water vapor transmission rate, WVTR ( g/ m <sup>2</sup> •d )	2000 – 6000	GB/T 12704-1991
Hydrostatic Pressure (cm•H <sub>2</sub> O)	95 – 140	GB/T 4744-1997
Tensile strength (N)	Machine Direction	GB/T 3923.1-1997
	Cross Direction	
Elongation at break (%)	Machine Direction	GB/T 3923.1-1997
	Cross Direction	
Basis Weight	= 55 gms	
Composition:	= 30 gms	
	= 25 gms	

**PACKAGING:** Flat Packed, 5 pcs/bag, 5 bags/case (25 Pieces/Case)  
 Outer liner bag  
 White exterior, 5 layers/ double walled carton
