

Nylon Glove Liner

Part Number: VTGNLR-1/1

Part of the

 MicroTek
 product family

Description: White seamless nylon glove liner limits skin irritation caused by contact with glove material. Universal size and ambidextrous shape fits comfortably under latex, PVC or nitrile gloves. Suitable for use in controlled environments.

Physical Characteristics: Lightweight non-linting knitted fine-gauge continuous filament 100% virgin nylon. Full-finger design allows for increased finger tip feel and dexterity. Quality, sturdy construction allows liners to be laundered and reused.

Features & Benefits: Provides dexterity in finger tips, while offering comfort and improved grip in palm. Durable design allows for laundering & re-use; significantly reducing cost Universal size reduces inventory needs, & eliminates sorting after laundering

Material Attributes: 78 denier nylon pattern
 6 gram (+2) glove weight, material is 18 gram
 15 fine gauge per inch stitching, 2 yarn knitted construction

Size: One size universal

Color: White

Packaging : Flat stacked in poly bags. 12 pair per bag, 50 Bags per case.
