Job _____

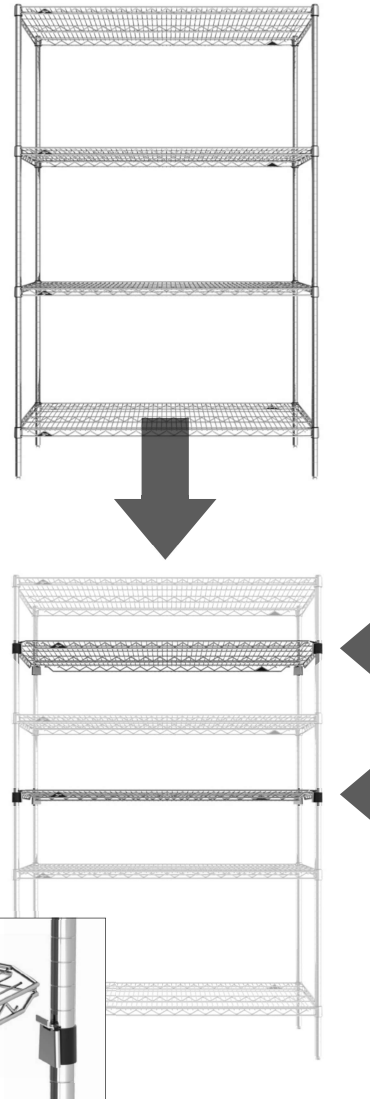

Super Erecta EZ-ADD Shelf

A wire shelf that is easily added or removed from a Metro wire shelving unit without dismantling the shelving unit. Patent pending one-piece polymer collar has a built-in bead that captures the groove in the 1" (25mm) diameter post. A stainless lock mounting plate ensures a tight fit for the collar assembly and holds the shelf in position. Lock clips are included and are required when slanting a shelf. EZ-ADD shelves have a load rating (evenly distributed) of 400lbs (181kg).

- Add / Remove an EZ-ADD shelf easily without dismantling the shelving unit
- Add more storage levels faster than conventional wire shelving.
- Load Capacity per Shelf: 400lbs (181kg) evenly distributed.
- Chrome and Metroseal Green finishes. Metroseal has a 12 year limited warranty against rust and corrosion.
- Single packs: consist of the shelf, (4) EZ-ADD collars, (4) mounting plates, and (4) lock clips.
- Retrofits easily to existing Metro wire shelving units
- NSF listed

Material Specifications and Usage Guidelines

- Wire Shelf: cold rolled steel.
- Chrome: genuine Nickel chrome with a protective lacquer exterior coat.
- Metroseal Green: Corrosion Resistant Epoxy coating with built-in Microban protection over a protective zinc substrate. Microban® antimicrobial product protection continuously fights the growth of bacteria, mold, and mildew that cause stains and odors.
- Collar: Nylon
- Mounting Plate: Type 304 stainless steel
- Lock Clip: Nylon
- Continuous Temperature Usage: -20 to 120F (-29 to 49C)
- EZ-ADD components are designed for use with Metro brand wire shelving.

EZ-ADD shelves increase storage and organization without dismantling the shelving unit.

Also Available in Metroseal Green

Super Erecta EZ-ADD Shelf & Preconfigured Models

Configurations and Load Ratings

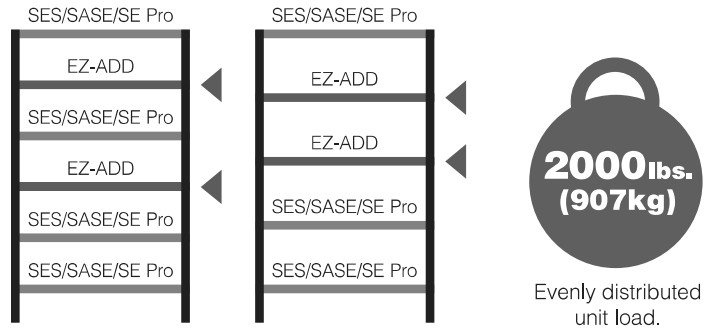

- EZ-ADD shelves must be used within a shelving unit having four posts.
- You cannot connect another shelf to an EZ-ADD shelf with an "S" Hook.
- Unit load ratings (evenly distributed) are dependent on the number of Super Erecta shelves, Super Adjustable shelves, Super Erecta Pro shelves, and/or three-sided double snake frames used.
- EZ-ADD shelves are not recommended for Over-the-Road applications.

Freestanding Stationary Units with three or more Super Erecta (SES), Super Adjustable (SASE), or Super Erecta Pro (SE PRO) shelves.

Requirements: Top and Bottom SES, Super Erecta Pro or SASE shelves; at least one SES, Super Erecta Pro or SASE shelf positioned near the middle of the post.

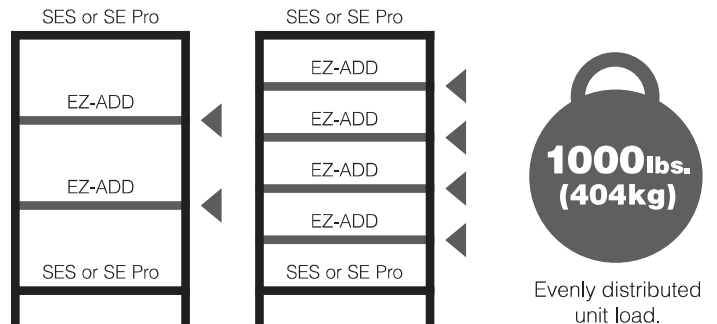

Shelf Types

-  Super Erecta, or Super Erecta Pro
-  Super Erecta, Super Adjustable Super Erecta, or Super Erecta Pro
-  EZ-ADD

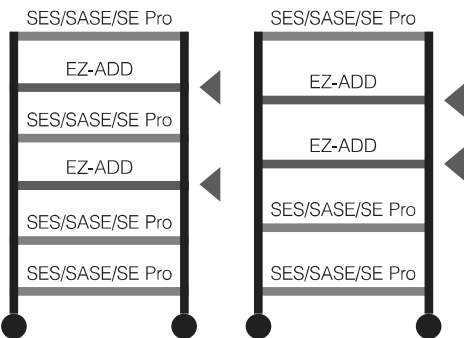

Freestanding Stationary Units with Top & Bottom Super Erecta (SES) or Super Erecta Pro (SE PRO) shelves; all intermediate shelves are EZ-ADD.

Requirements: Unit must be a freestanding unit and cannot be connected to an adjacent unit with "S" hooks.

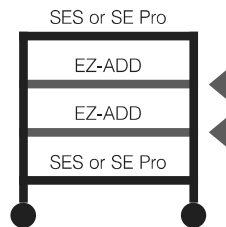

Mobile Unit Requirements

For units with posts taller than 54"

- Units using posts taller than 54" must have top and bottom SES, Super Erecta Pro, or SASE shelves and (1) intermediate SES, Super Erecta Pro shelf, SASE shelf, or three sided frame positioned near the middle of the post.

For units with posts 54" and shorter

- Units using posts that are 54" or shorter must have a minimum of a top and bottom Super Erecta or Super Erecta Pro shelf.

Job _____

We put space to work.

Super Erecta EZ-ADD Shelf & Preconfigured Models

Security Units

- EZ-ADD shelves may be used as the intermediate shelves on security units.

NOTE: A standard fixed shelf is not required in the middle.

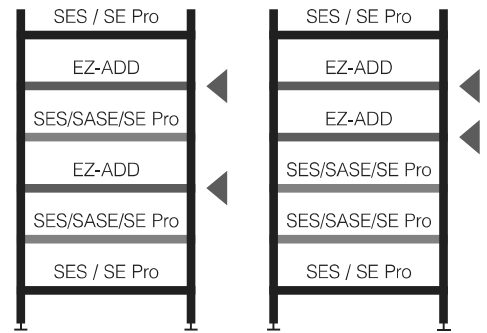

NOTE FOR HEAVY DUTY MOBILE USES: When the unit will experience regular travel on/off elevators, to/from the load dock, standard SES shelves are recommended for middle shelves.

Top-Track

End Units

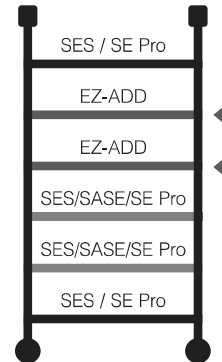

- Top and bottom shelves must be Super Erecta (SES) or Super Erecta Pro (SES PRO).
- Two more fixed collar shelves are required in the middle and can be Super Erecta (SES), Super Erecta Pro (SES PRO), or Super Adjustable Super Erecta (SASE).
- EZ-ADD can be used as additional optional shelves.

Mobile Units

- Top and bottom shelves must be Super Erecta (SES) or Super Erecta Pro (SES PRO).
- Two more fixed collar shelves are required in the middle and can be Super Erecta (SES), Super Erecta Pro (SES PRO), or Super Adjustable Super Erecta (SASE).
- EZ-ADD can be used as additional optional shelves.

NOTE: For more heavily loaded systems, Super Erecta or Super Erecta Pro shelves are recommended for all intermediate shelves.

qwikTRAK

Mobile & End Units

- Follow the rules for configuring freestanding stationary and mobile shelving on page 3.

NOTE: For more heavily loaded systems, Super Erecta or Super Erecta Pro shelves are recommended for the intermediate shelves.
